

Pet Care Service

Pet and house sitting

The first thing Mel will do is get to know your pet and their behaviour. Followed by a thorough body and coat check. It is important to know what 'is normal' for your pet so Mel can assess anything that 'is unusual or abnormal' in an emergency situation.

Mel: **Dog first aid canine emergency care.**

- Love, cuddles, play and attention
- Feeding, fresh water and washing both bowls out everyday
- Exercise, walks (x 2 if required), swimming (towel dried after)
- Can arrange play dates (for doggies) if requested
- Brush, groom or bathe your pet (If required after muddy walk or 'fox cologne')
- Towel dried if wet, wipe paws after muddy walks
- Given treats or administering oral or other medication (If required)
- Sticking to any routines your pet expects or is used to
- Transportation to vets, new locations for walks, training/therapy sessions
